HIPERfiRE®

Feel What You Become®

We are all on a journey to become something. To become someone.

From the day we're put on this earth, what we are bound to become is very different than the existence we are born in to. We are destined to evolve. It is in our blood to change.

Being human is to become. Something bigger, something stronger, something better. To open our eyes and be aware that we are something new just by what we take in. What we experience.

To be, is simple. To become, takes action.

At HIPERFIRE, we didn't set out to become something different. We set out to be true to ourselves and became something different in the process. We're the result of the tireless pursuit of perfection. The outcome of a burning desire to innovate that can only be called a passion.

We understand where the firearms industry is today, and we're ready to transform it.

It's time to experience the new potential in performance.

It's time to experience HIPERFIRE and "feel what you become."

HIPERFIRE, The Company

HIGH PERFORMANCE FIREARMS LLC (d.b.a. HIPERFIRE) is a Minnesota limited liability company located in the Minneapolis and St. Paul, Minnesota metro area.

HIPERFIRE was organized in 2011 to design, manufacture, and sell novel AR15/M4 accessory products into the private, commercial, LE/SWAT, and MIL markets to satisfy the unmet needs of the most demanding recreational shooter and professional operator.

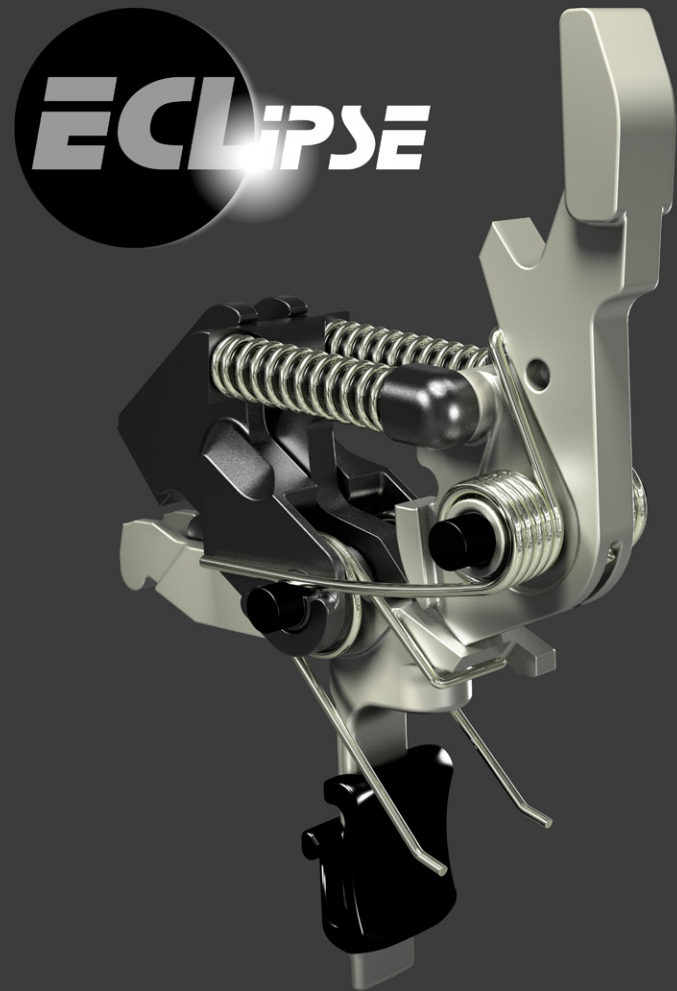

The product lines include semi-auto and full-auto fire-controls, pistol grips, muzzle compensators, etc.

Other technologies are under development that will extend the performance of the current state of the art in demonstrable ways by any objective measure. U.S. Patents or patents that are pending protect most of HIPERFIRE®'s products in the U.S.

All of HIPERFIRE's products are made in the U.S.A. by Americans.

HIPERFIRE is veteran operated.

HIPERTOUC[®]

HIGHLIGHTS

HIPERFIRE[®]'s Top-of-the-Line Trigger
 Eclipses the Performance of Other Offerings
 Nickel Bliss[™], Electroless Nickel Boron (NIB) Done Right

- Exceptionally Smooth Feel
- Enhanced Corrosion Protection
- Polished Look

Virtually No Take-Up

US Patents: 8572880, 9052149, 9175917, 9696103, D817436, 10006733, 10222161

BONUS BENEFITS

Cam-Over Toggle Engine[™]

- Very Hard-Hitting Hammer
- Soft-Start Lock-Up[™] for Pre-Ignition Stability
- You-Adjust Pull Weights of 2½ and 3½ lbs.

Radical Sear Mechanics[™]

Straight Trigger Bow

HIPERSHOE[®] Finger Pad Revolution[™]

- Changes the Trigger Lever Length for Fine Weight Adjustment
- Changes the Trigger Lever Length to Further Adjust Pre-Travel
- Position Your Finger in the Same Place Every Time
- Reduces the Perception of Trigger Weight Still Further

STANDARD BENEFITS

Semi-Auto, Single Stage

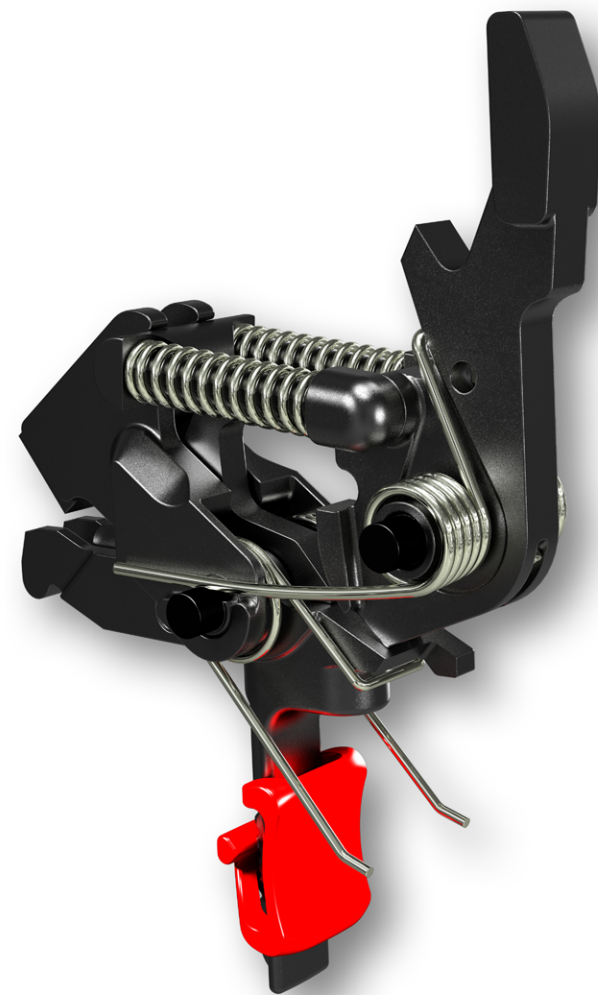

Crisp, Clean, Trigger Break

Very, Short Over-Travel

Very, Positive Reset You Can Feel and Hear

MSRP \$275

HIPERTOCH® Competition

HIGHLIGHTS

Designed for the Ultimate In AR Performance
HIPERFIRE®'s Most Popular Trigger
Virtually No Take-Up/Pre-Travel, Very Smooth
US Patents: 8572880, 9052149, 9175917, 9696103, D817436, 10006733, 10222161

BONUS BENEFITS

- Cam-Over Toggle Engine™
- Very Hard-Hitting Hammer
 - Soft-Start Lock-Up™ for Pre-Ignition Stability
 - You-Adjust Pull Weights of 2½ and 3½ lbs.
- Radical Sear Mechanics™
- Straight Trigger Bow
- HIPERSHOE® Finger Pad Revolution™
- Changes the Trigger Lever Length for Fine Weight Adjustment
 - Changes the Trigger Lever Length to Further Adjust Pre-Travel
 - Position Your Finger in the Same Place Every Time
 - Reduces the Perception of Trigger Weight Still Further

STANDARD BENEFITS

Semi-Auto, Single Stage
Crisp, Clean, Trigger Break
Very, Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$250

HIPERTOUC[®] Reflex

HIGHLIGHTS

Everyman's AR Trigger
Virtually No Take-Up/Pre-Travel
Similar to the Competition except with Curved Trigger Bow
Very Smooth
As Run by Keanu Reeves in John Wick 2
US Patents: 8572880, 9052149, 9175917, 9696103, D817436, 10006733, 10222161

BONUS BENEFITS

Cam-Over Toggle Engine™

- Very Hard-Hitting Hammer
- Soft-Start Lock-Up™ for Pre-Ignition Stability
- You-Adjust Pull Weights of 2½ and 3½ lbs.

Radical Sear Mechanics™

STANDARD BENEFITS

Semi-Auto Single-Stage
Curved Trigger with a Backbone™
Crisp, Clean, Trigger Break
Very Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$225

HIPERTOUC[®] Elite

HIGHLIGHTS

Significant AR Upgrade
Only a Hint of Take-Up/Pre-Travel
Very Smooth, No-Flinch Break
US Patents: 8572880, 9052149, 9175917, 9696103, D817436, 10006733, 10222161

BONUS BENEFITS

Cam-Over Toggle Engine™

- Very Hard-Hitting Hammer
- Soft-Start Lock-Up™ for Pre-Ignition Stability
- You-Adjust Pull Weights of 2½ and 3½ lbs.

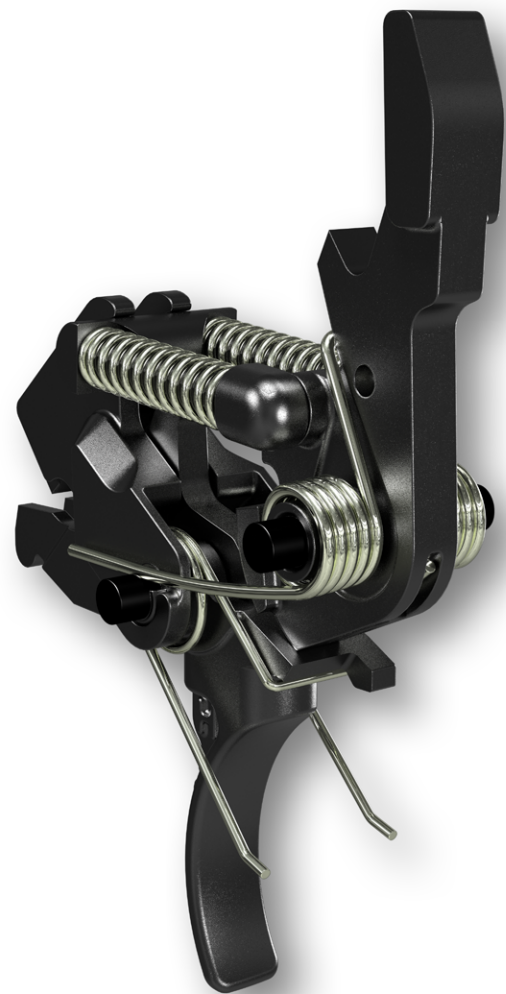

Radical Sear Mechanics™

STANDARD BENEFITS

Semi-Auto Single-Stage
Curved Trigger with a Backbone™
Crisp, Clean, Trigger Break
Very Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$200

HIPERTOUC[®] Genesis

HIGHLIGHTS

Significant AR Upgrade
MIL Take-Up/Pre-Travel
Very Smooth, No-Flinch Break
US Patents: 8572880, 9052149, 9175917, 9696103, D817436, 10006733, 10222161

BONUS BENEFITS

Cam-Over Toggle Engine™

- Very Hard-Hitting Hammer
- Soft-Start Lock-Up™ for Pre-Ignition Stability
- You-Adjust Pull Weights of 2 and 2½ lbs.

Radical Sear Mechanics™

STANDARD BENEFITS

Semi-Auto Single-Stage
Curved Trigger with a Backbone™
Crisp, Clean, Trigger Break
Very Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$200

HIPERTOUC[®] Auto

HIGHLIGHTS

M4/M16: NFA, LE/SWAT, MIL
Full-Auto Select-Fire: Very Robust, Built Like a Tank
Semi-Auto: Hint of Creep, Match Grade Feel and Performance
US Patents: 8572880, 9052149, 9175917, 9696103, D817436, 10006733, 10222161

BONUS BENEFITS

Cam-Over Toggle Engine™

- Very Hard-Hitting Hammer
- Soft-Start Lock-Up™ for Pre-Ignition Stability
- Semi-Auto, You-Adjust, Pull Weights of 2½ and 3½ lbs.

Radical Sear Mechanics™

STANDARD BENEFITS

Single-Stage
Curved Trigger with a Backbone™
Crisp, Clean, Trigger Break
Very Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$250

HIGHLIGHTS

Power Drop-In

2 lb Pull

MIL-Grade Hammer Strike, No LPS, Ever

H&M BLACKNITRIDE+™ Finish

- Exceptionally Smooth Feel
- Enhanced Corrosion Protection
- Polished Look

PCC Blowback Tough

- Hammer Collision Bumper
- Disconnecter Crash Protection
- Disconnecter Spring Crush Protection

Enhanced Duty Trigger® Sharp Shooter

HIGHLIGHTS

Significant AR Upgrade
MIL Upgrade, LE/SWAT, Personal Utility
Single Stage Semi-Auto
US Patents: 9052149, 9175917, 9696103, D817436, 10006733

BONUS BENEFITS

Radical Sear Mechanics™

- Medium Weights, 4½ and 5½ lb Pulls
- Smooth
- Accurate

Swing Fast Hammer Head™, Very Faster Lock-Up
MIL++ Heavy Duty Hammer Springs

- Very Hard Hammer Strikes
- Yet, Medium Pull Weights

STANDARD BENEFITS

Curved Trigger with a Backbone™
Crisp, Clean, Trigger Break
Very Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$99

Enhanced Duty Trigger® Heavy Gunner

HIGHLIGHTS

Significant AR Upgrade
MIL Upgrade, LE/SWAT, Personal Utility
Single Stage Semi-Auto
US Patents: 9052149, 9175917, 9696103, D817436, 10006733

BONUS BENEFITS

Radical Sear Mechanics™

- Medium Weights, 4½ and 5½ lb Pulls
- Smooth
- Accurate

Heavy Hammer Head™

- More Powerful Primer Strikes
- Faster Than MIL Lock-Up

MIL++ Heavy Duty Hammer Springs

- Very Hard Hammer Strikes
- Yet, Medium Pull Weights

STANDARD BENEFITS

Curved Trigger with a Backbone™

Crisp, Clean, Trigger Break
Very Short Over-Travel
Very, Positive Reset You Can Feel and Hear

MSRP \$149

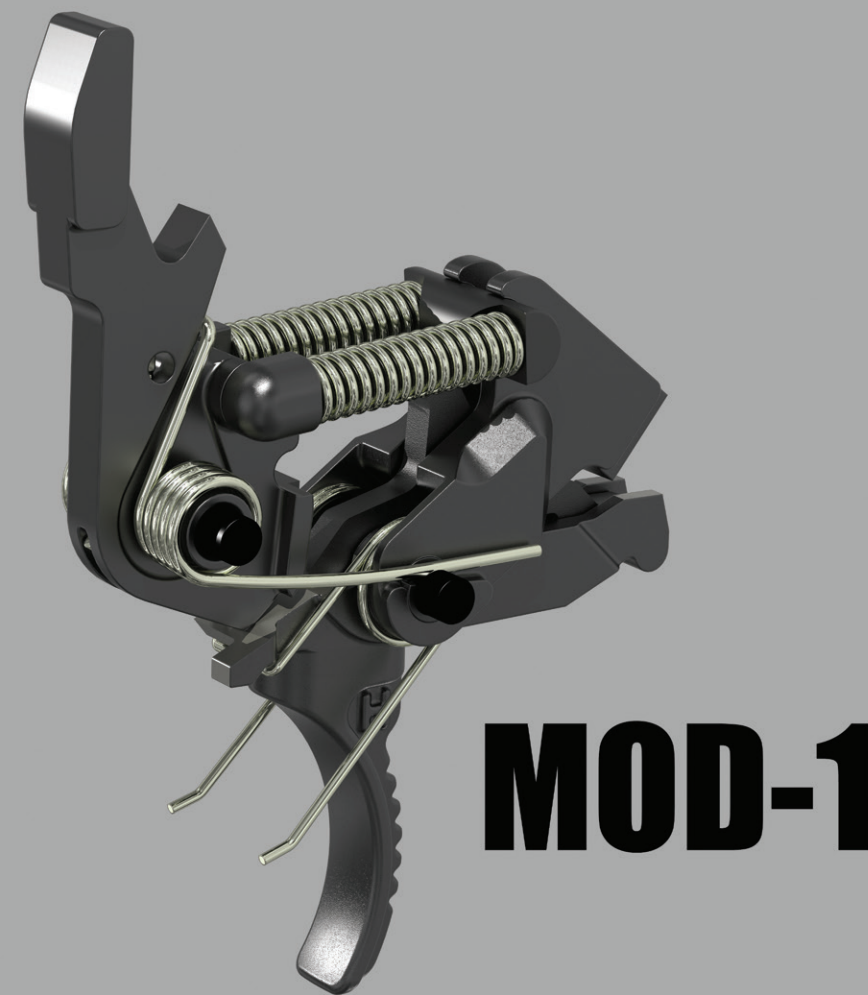

X2S[®]

2-STAGE TRIGGER

HIPERFIRE[®] is simply unmatched in performance and reliability. We have broken all of the standards in single-stage AR triggers with our HIPERTOUCHE[®] family, and now we have done the same in our new X2S[™] family of two-stage triggers.

Whether you shoot competitively, train to defend yourself and your family, or you just want to enjoy shooting out on the range, ensuring your rifle functions properly every time, without fail, is essential.

Our new two-stage triggers feature the same technology that HIPERFIRE is known for: Radical Sear Mechanics[™], Cam-Over Toggle Engine[™], Soft Start Lock-Up[™], Tactile Weightless Break[™], user-adjustable pull weights, mil-grade components, and precision manufacturing. These come together to make one of the most robust two-stage triggers available today.

HIGHLIGHTS

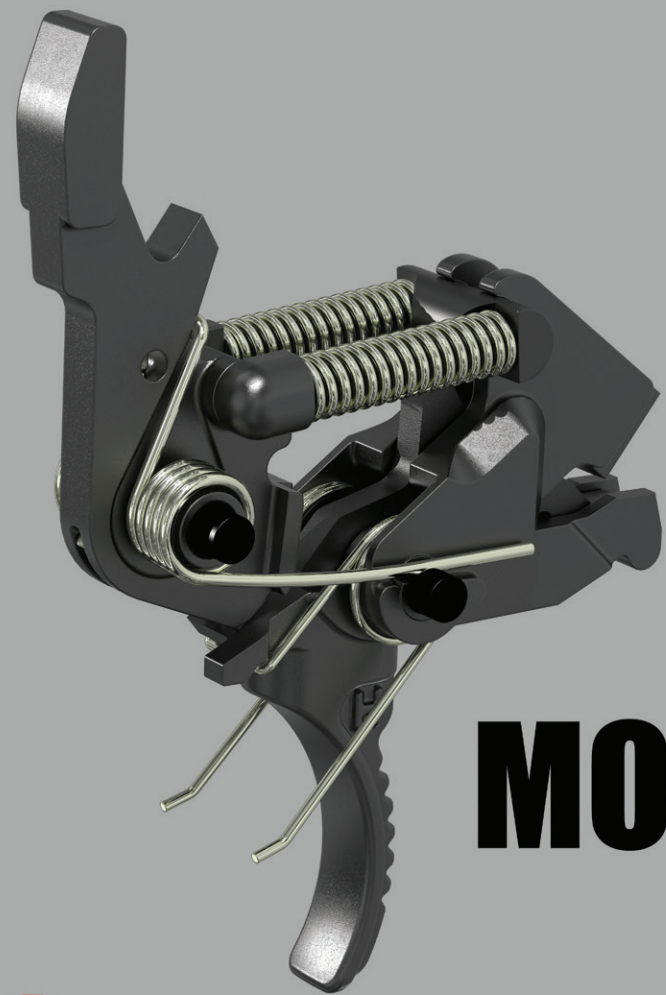

- Two-stage AR trigger
- Short, user-adjustable, 2 or 2½ pound first stage
- Minimal second stage wall with a 1½ pound weight
- Total 3½ or 4 pound pull with green or red springs
- A distinct wall between the first and second stages to effectively "prep" for added control
- Clean, effortless break
- Weightless, imperceptible over-travel

BONUS BENEFITS

- Cam-Over Toggle Engine allows for lighter pull weights without losing hammer strike energy
- Soft Start Lock-Up aids in eliminating rifle "flinch" after the break for more accurate shots at distance
- Radical Sear Mechanics permits the use of heavier hammer springs to aid in longevity and eliminating light primer strikes
- Tactile Weightless Break means there is no mushy over-travel after the break
- Curved trigger bow allows for the addition of our patented HIPERSHOE (sold separately)
- First stage slightly longer than its MOD-2 and MOD-3 counterparts for a more defined first stage "prep"

MSRP \$200

MOD-2

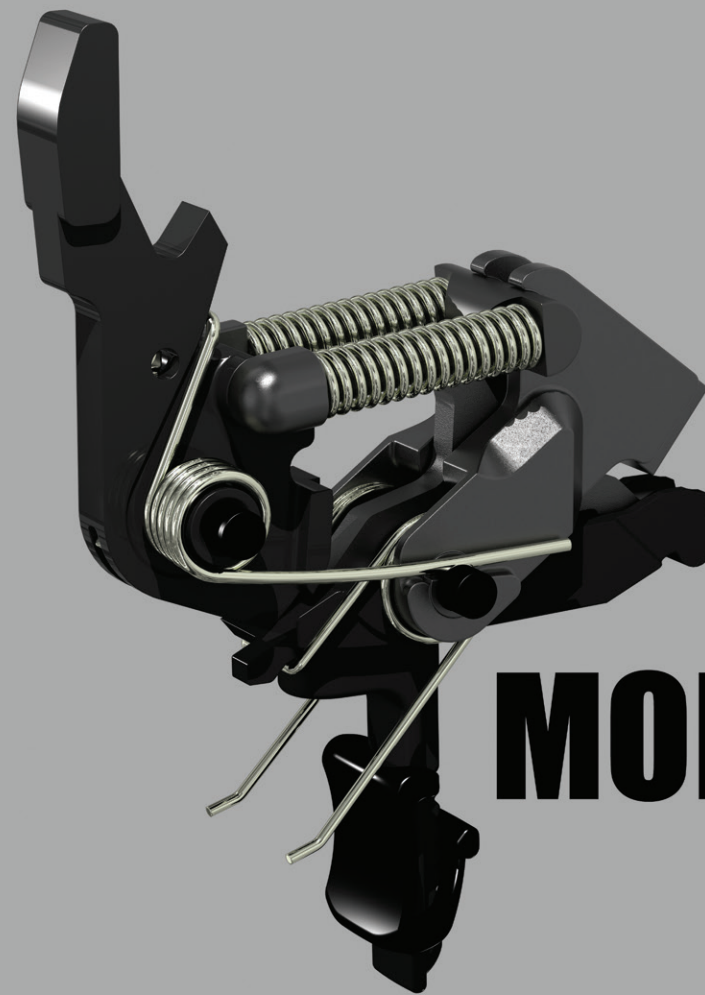

HIGHLIGHTS

- Two-stage AR trigger
- Minimal, user-adjustable, 2 or 3 pound first stage
- Minimal second stage wall with a 1½ pound weight
- Total 3½ or 4½ pound pull with green or red springs
- A distinct wall between the first and second stages to effectively "prep" for added control
- Clean, effortless break
- Weightless, imperceptible over-travel

BONUS BENEFITS

- Cam-Over Toggle Engine allows for lighter pull weights without losing hammer strike energy
- Soft Start Lock-Up aids in eliminating rifle "flinch" after the break for more accurate shots at distance
- Radical Sear Mechanics permits the use of heavier hammer springs to aid in longevity and eliminating light primer strikes
- Tactile Weightless Break means there is no mushy over-travel after the break
- Curved trigger bow allows for the addition of our patented HIPERSHOE (sold separately)
- First stage slightly shorter than the MOD-1 design
- Same sear as the MOD-3, but curved trigger bow with standard Maganese Phosphate coating

MSRP \$200

MOD-3

HIGHLIGHTS

- Two-stage AR trigger
- Minimal, user-adjustable, 2 or 3 pound first stage
- Minimal second stage wall with a 1½ pound weight
- Total 3½ or 4½ pound pull with green or red springs
- A distinct wall between the first and second stages to effectively "prep" for added control
- Clean, effortless break
- Weightless, imperceptible over-travel

BONUS BENEFITS

- Cam-Over Toggle Engine allows for lighter pull weights without losing hammer strike energy
- Soft Start Lock-Up aids in eliminating rifle "flinch" after the break for more accurate shots at distance
- Radical Sear Mechanics permits the use of heavier hammer springs to aid in longevity and eliminating light primer strikes
- Tactile Weightless Break means there is no mushy over-travel after the break
- Flat trigger bow with our patented HIPERSHOE for consistent finger placement and lighter feel
- First stage slightly shorter than the MOD-1 design
- Same sear as the MOD-2, but with an upgraded Diamond-Like Coating

MSRP \$225

HIPERFIRE knows triggers. They are the most intimate contact we have with our firearm. Triggers affect what we “feel” in and about our gun and its ultimate performance that must take the preeminent place over any other firearm feature including optics, barrels, ammunition, and furniture.

HIPERFIRE has taken triggers for the AR15/10 to the next level. We have had a big impact within 3-gun circles because we came out of nowhere with no marketing, no reputation, no name. What we did have were triggers that shooters could only dream about.

In the Fall of 2013, the buzz began with the **HIPERTOUGH Competition trigger**, known then as the 24C. Since that time, our single-stage trigger product lines have grown to three: HIPERTOUGH, ENHANCED DUTY TRIGGER, and PDI. And now a 2-stage trigger family, the X2S. Why so many for the AR? Because shooters are many with many different preferences, needs, and wants. Not everyone competes. But everyone wants a good trigger.

If that’s not enough, we now have a high performance line of triggers for the AK, the XAK™ family.

If you or your customers want high performance, that is speed, timing, and controlled accuracy, where your trigger becomes transparent, you think “shoot,” and the shot is gone without distraction, then HIPERFIRE is for you. Get your finger on one of our triggers and you will know that “the trigger finger can tell no lie™.”

“How do I choose my AR trigger?”

On the right we show three easy steps.

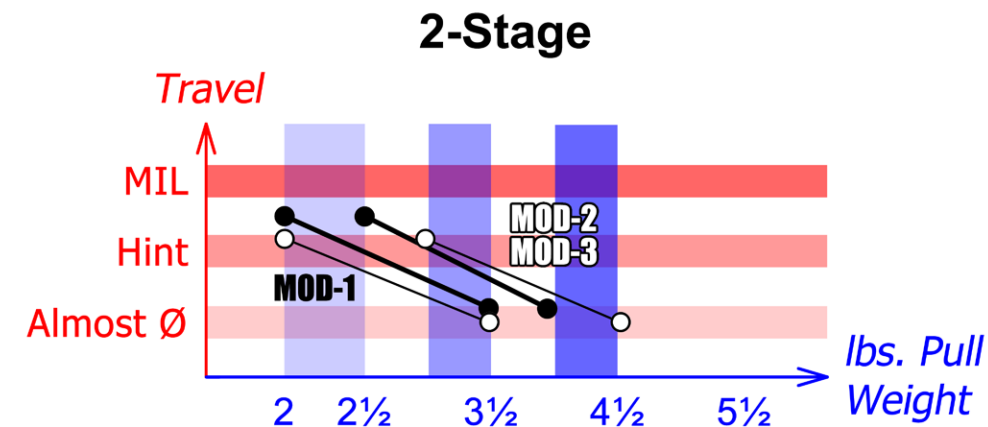

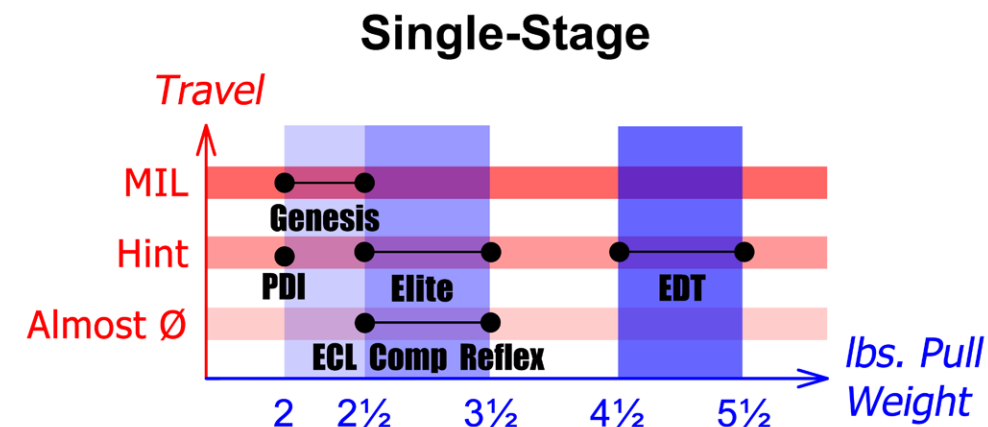

- Choose single or 2-stage operation.
- Choose the amount of creep or travel you prefer.
- Choose the pull weight you prefer.
- Choose your trigger.

Easy does work, but if you want to really know triggers like HIPERFIRE does, read our HIPERTECH™ white papers found at www.hiperfire.com/hipertech.

Step 1
Choose
amount of travel

Step 2
Choose
pull weight(s)

Step 3
Choose
your trigger

RBT®

RIFLE BUILDERS' TRIGGER

*For OEMs only...
find it in your favorite
factory rifle.*

Availability:

AR15 Pattern, Semi-Auto
M4/16 Pattern, Full-Auto

- Built MIL Tough
- Fast Lock Time
- Rough Handling Safe
- Radical Sear Mechanics™
- Almost No Creep
- Very Positive Reset
- Pull Weights To-Order
- MIL-Grade+ Hammer Strike
- Fast Positive Weightless Break

RBT features reduced pull weight and reduced creep compared to typical MIL-spec triggers. No other trigger delivers this performance at OEM wholesale pricing.

Pull energy is the combination of trigger pull weight and creep. This low energy feel is what makes this trigger special. Its responsiveness is impressive. It's all about control and timing when the shot counts.

RBT hammer strikes on the firing pin not only exceed the SAAMI threshold, but strikes harder than MIL-spec.

HIPERFIRE

TRIGGER

After years of outperforming expectations in the AR trigger market, HIPERFIRE has done it again, but this time with the AK platform. The AK platform is easily the second most popular MSR platform in the United States next to the AR. The AK is known the world over for its versatility, durability, and ability to operate in extreme conditions; the AK platform was the obvious choice for our next set of innovations.

To kick off our introduction into the AK market, we are proud to introduce our new HIPERFIRE AK trigger family. We took the same materials, heat treatment, precision manufacturing, and innovative designs that have proved themselves over the years in our AR products, and introduced them into this new family of triggers. We know you won't be disappointed.

Traditional AK triggers are heavy with a TON of creep, and the reset leaves a lot to be desired. So why not upgrade to the brand that truly delivers? It doesn't matter if your AK sees random days at the range, tactical/duty use, competition, or only something to show off to your buddies, our new family of triggers are the best choice available for any AK.

XAK Mark 1

HIGHLIGHTS

- Single-Stage AK trigger
- Short 2+ lbs. pull weight (depending on user supplied spring selection)
- Clean, effortless break
- Short, strong reset

BONUS BENEFITS

- Improved single-stage "creep" or pre-travel
- Lightened trigger pull weight through precision manufacturing and lower friction coefficients
- Curved trigger bow allows for the addition of our patented HIPERSHOE® (sold separately on our accessories page)
- Black, Mil-grade Parkerize coating for longevity

MSRP \$75

XAK Mark 2

HIGHLIGHTS

- Single-Stage AK trigger
- Short 2+ lbs. pull weight (depending on user supplied spring selection)
- Clean, effortless break
- Short, strong reset

BONUS BENEFITS

- Improved single-stage "creep" or pre-travel
- Lightened trigger pull weight through precision manufacturing and lower friction coefficients
- Flat trigger bow with patented HIPERSHOE®
- HIPERSHOE Finger Pad Revolution™
 - 6 position adjustability for fine tuning finger placement and leverage
 - Positions your finger in the exact same place every time for consistency without even thinking about it
 - Spreads out the pull weight for an even lighter feel on your finger
- Black, Mil-grade Parkerize coating for longevity

MSRP \$75

XAK Mark 3

HIGHLIGHTS

- Single-Stage AK trigger
- Short 2+ lbs. pull weight (depending on user supplied spring selection)
- Clean, effortless break
- Short, strong reset

BONUS BENEFITS

- Improved single-stage "creep" or pre-travel
- Lightened trigger pull weight through precision manufacturing and lower friction coefficients
- Flat trigger bow with patented HIPERSHOE®
- HIPERSHOE Finger Pad Revolution™
 - 6 position adjustability for fine tuning finger placement and leverage
 - Positions your finger in the exact same place every time for consistency without even thinking about it
 - Spreads out the pull weight for an even lighter feel on your finger
- High-quality Nickel Boron for lubricity and longevity

MSRP \$95

T-series XAK[®] Triggers

Stock AK triggers feature lots of creep and over-travel. They are not designed for precision, but safety on the battlefield.

HIPERFIRE's AR triggers are precision built devices to leverage the USA designed, high-precision, AR lower receiver's, tight-toleranced, hole spacing to provide high-performance feel (low pull weights, low creep, and little over-travel) with safety.

HIPERFIRE brings AR type trigger performance to the AK. However, because the HIPERFIRE **XAK** trigger creep and over-travel are greatly reduced, some AKs won't SAFE using the large-gap, stock, AK selector designed for stock AK triggers. We engineered our novel safety selector to make custom adjustments of the gap to remedy this problem, making our AK triggers' SAFE in most AKs. See the **XAK** safety selector page a few pages past this one.

NOW, we have another alternative, HIPERFIRE'S **XAK** T-series trigger for the AK. "T" stands for "tabbed." Use your stock AK safety selector with our T-series trigger and adjust for safety selector gap by progressively grinding down the tab as shown at left for an optimal fit and SAFE function in most AKs.

XAK T1

HIGHLIGHTS

- Single-Stage AK trigger
- Short 2+ lbs. pull weight (depending on user supplied spring selection)
- Clean, effortless break
- Short, strong reset

BONUS BENEFITS

- Adjustable height rear trigger tab to work with most AK safety selectors for improved single-stage "creep" or pre-travel
- Lightened trigger pull weight through precision manufacturing and lower friction coefficients
- Curved trigger bow allows for the addition of our patented HIPERSHOE[®] (sold separately on our accessories page)
- Black, Mil-grade Parkerize coating for longevity

MSRP \$75

XAK T2

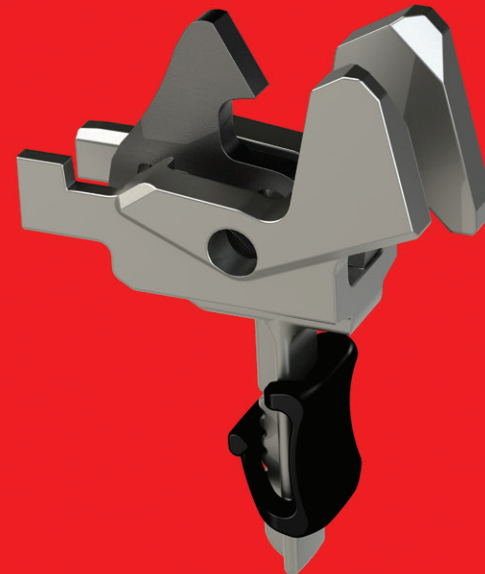

HIGHLIGHTS

- Single-Stage AK trigger
- Short 2+ lbs. pull weight (depending on user supplied spring selection)
- Clean, effortless break
- Short, strong reset

BONUS BENEFITS

- Adjustable height rear trigger tab to work with most AK safety selectors for improved single-stage "creep" or pre-travel
- Lightened trigger pull weight through precision manufacturing and lower friction coefficients
- Flat trigger bow with patented HIPERSHOE®
- HIPERSHOE Finger Pad Revolution™
 - 6 position adjustability for fine tuning finger placement and leverage
 - Positions your finger in the exact same place every time for consistency without even thinking about it
 - Spreads out the pull weight for an even lighter feel on your finger
- Black, Mil-grade Parkerize coating for longevity

MSRP \$75

XAK T3

HIGHLIGHTS

- Single-Stage AK trigger
- Short 2+ lbs. pull weight (depending on user supplied spring selection)
- Clean, effortless break
- Short, strong reset

BONUS BENEFITS

- Adjustable height rear trigger tab to work with most AK safety selectors for improved single-stage "creep" or pre-travel
- Lightened trigger pull weight through precision manufacturing and lower friction coefficients
- Flat trigger bow with patented HIPERSHOE®
- HIPERSHOE Finger Pad Revolution™
 - 6 position adjustability for fine tuning finger placement and leverage
 - Positions your finger in the exact same place every time for consistency without even thinking about it
 - Spreads out the pull weight for an even lighter feel on your finger
- High-quality Nickel Boron for lubricity and longevity

MSRP \$95

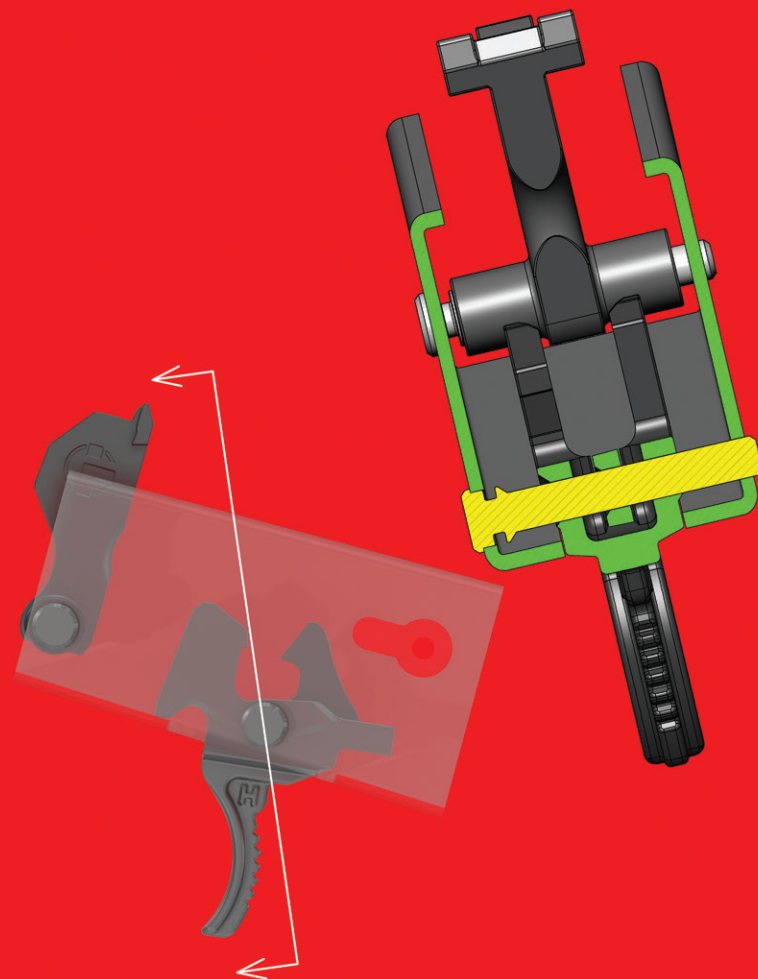

AK Pins

HIGHLIGHTS

- The pins feature chamfered edges for easy push-through installation into any AK receiver; no more hunting for the hammer, and trigger holes, or the receiver hole on the back side.
- The pins are longer so they protrude slightly, making it easier to push them out during uninstalls.
- These pins especially compliment HIPERFIRE's AK triggers that also feature US patent pending pin installation chamfers.
- The pins are compatible with stock pattern AK hammers and sleeved trigger subassemblies.

MSRP \$13

AK Safety Selector

HIGHLIGHTS

HIPERFIRE's AK trigger groups are precision devices that feature very low creep. AK receivers are typically less precise. Sometimes the small amount of creep is not enough to close the stock selector's gap with the trigger's tail when on SAFE allowing the firearm to be fired.

HIPERFIRE's AK safety selector features an adjustable set-screw to close this gap so that SAFE means SAFE.

The selector is compatible with stock AKs.

MSRP \$50

XAK Main Spring

HIGHLIGHTS

HIPERFIRE's **XAK** main spring is made from twisted 3-wire stainless steel, to reliably function just like AK stock springs.

Now, you can purchase the main spring with our **XAK** trigger groups from the same source, hiperfire.com and many other retail outlets.

MSRP \$9

Rem700 Trigger

The **Rem700** is HIPERFIRE's inaugural entry into the bolt-action rifle trigger category, designed and crafted for Remington 700 pattern rifles.

Of course the **Rem700** features HIPERFIRE's brand of high performance, typified by its AR and AK trigger lines, to include HIPERFIRE's patented **HIPERSHOE** and all that implies, an industry first that others have imitated but never equaled, delivering great value at affordable pricing. Now, the **Rem700** brings excellence to the hunt in the field, the woods, and on the mountain, even the battlefield, or just the range. Adjust your trigger pull weight from light to heavy and your trigger overtravel simply with a provided allen wrench.

Straight Bow w/ HIPERSHOE
Curved Bow

MSRP \$250

HIPERCOMP® 556 Next Gen

The most effective muzzle recoil brake on the market.
How do we know? We performed comparative live-fire tests to confirm our design. It's the same size as the MIL-Spec Birdcage flash hider. Absolutely amazing! Out performs our first gen.

HIGHLIGHTS

High Performance Compensator
Same Size as MIL Bird-Cage Flash Hider
M9/M10 Bayonet Compatible
Best-In-Class Recoil Reduction

STANDARD BENEFITS

Calibers: 5.56 NATO, .223 Remington
Muzzle Thread: 1/2-28 UNEF
Weight: 2.4 oz
Crush Washer Included
Installs w/ MIL Armorer's Wrench

MSRP \$69

HIPERCOMP® 9mm Next Gen

The most effective muzzle recoil brake on the market.
How do we know? We performed comparative live-fire tests to confirm our design. It's the same size as the MIL-Spec Birdcage flash hider. Absolutely amazing! Out performs our first gen.

HIGHLIGHTS

High Performance Compensator
Same Size as MIL Bird-Cage Flash Hider
M9/M10 Bayonet Compatible
Best-In-Class Recoil Reduction

STANDARD BENEFITS

Calibers: 9mm Luger
Muzzle Thread: 1/2-28 UNEF
Weight: 2.4 oz
Crush Washer Included
Installs w/ MIL Armorer's Wrench

MSRP \$69

HIPERCOMP® 762 NATO G2

The most effective muzzle recoil brake on the market.
See a pattern? How do we know? We performed
comparative live-fire tests to confirm our design.
Absolutely amazing! Out performs our first gen.

HIGHLIGHTS

High Performance Compensator
Best-In-Class Recoil Reduction

STANDARD BENEFITS

Calibers: 7.62 NATO
Muzzle Thread: 5/8-24 UNEF RH, 7.62 NATO

Diameter: .95 in
Length: 2.3 in
Weight: 3.2 oz
Crush Washer Included

MSRP \$79

HIPERCOMP® 762 AK

The most effective muzzle recoil brake on the market
for the AK as well. How do we know? Live-fire
accurate, impulse, energy measurements. It's the
same size as the 762 NATO comp but meets the AK
muzzle thread spec and the AK rotation locking pin if
you use it. Absolutely amazing!

HIGHLIGHTS

High Performance Recoil Muzzle Compensator
Best-In-Class Recoil Reduction

STANDARD BENEFITS

Calibers: 7.62x 39 Russian
Muzzle Thread: M14x1 Metric LH
Weight: 3.2 oz
Diameter: .95 in
